THE STORY

The inspiration for this design came after a photography trip to the Blue Mountains. The different layers of mountain ranges at dawn's first light created a soft, undulating horizontal pattern. We then decided to look for a mix of matte & bright yarns to bring the pattern to life. This was made possible with newly installed Jacquard looms. One thing we are certain of: it's a truly unique design.

TAKING CARE

Cleaning your blind fabric is essential, not only to remove surface dust and stains, but it will also increase the longevity of your blinds. Use a feather duster, or a vacuum set on low with an appropriate attachment. Always exercise caution when spot cleaning. Use a clean, lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always make sure to test any cleaning product on a small, discreet section of the fabric. Chemicals will permanently damage your fabric.
