# ST LUCIA

## THE STORY

*It is a simple one! Screen fabrics are so popular but not everyone likes the 'engineered' look, so St Lucia is a softer version of a traditional screen. It is just as contemporary but with less of a minimalist look than most screens. Grab the swatch and put it in front of the window, it does a brilliant job at softening the light entering your home.*

# TAKING CARE

*Cleaning your blind fabric is essential, not only to remove surface dust and stains, but it will also increase the longevity of your blinds. Use a feather duster, or a vacuum set on low with an appropriate attachment. Always exercise caution when spot cleaning. Use a clean, lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always make sure to test any cleaning product on a small, discreet section of the fabric. Chemicals will permanently damage your fabric.*
